CenterLine (Windsor) Limited Appoints Product Support Specialist

Windsor, Canada, May 26, 2015 –

CenterLine (Windsor) Ltd. is very pleased to announce the appointment of **Mr. Dan Mazerolle** to the new position of **Product Support Specialist**.

Dan has nearly 31 years of industry experience, an extensive technical and manufacturing background, a strong understanding of the North American welding industry and practical knowledge of advanced automation production environments. He's a graduate of St. Clair College where he obtained his Tool & Die certificate.

Among his career highlights, Dan previously held sales and customer service positions with Huys Industries Limited and Resistance Welding Products. In addition to these managerial positions, he also has ten (10) years of practical machining and CNC programming experience manufacturing a wide array of consumable components including: caps, bent gun arms, laminated shunts, water cooled cables, and dry jumpers. He's also skilled in the manufacture of weld fixtures and rebuilding transformers.

As Product Support Specialist, Dan will be providing technical support to CenterLine customers with an emphasis on consumable welding product applications.

CenterLine (Windsor) Ltd. is a recognized industry leader in the design, manufacture and supply of a full range of products and services satisfying welding, metalforming and cold spray applications for the automotive, mass transit, aerospace and defense industries. With nearly 60 years in business, CenterLine is continuing to develop advanced technologies and processes to assist its customers in maintaining their competitive advantage. For more information visit CenterLine's website at www.cntrline.com.
