### CenterLine Officially Launches KapTec™

Windsor, Canada, 12/03/2020

CenterLine (Windsor) Limited is proud to officially announce the launch of a new product to our Configured Product Family. CenterLine's KapTec™ is designed to automate the cap maintenance across a wide variety of applications. It is designed to dress caps and automate the cap changing process.

From robot carried guns to dual ped gun applications, the KapTec™ system is a solution for all cap servicing needs. Compared to manual cap changes, KapTec™ offers improved uptime, reduced maintenance requirements, and improved electrode adapter life.

CenterLine is proud to be the only manufacturer of a self-contained, fully automated cap dressing and cap changer unit for the Single Ped or Dual Ped Guns.

According to Larry Koscielski, Vice President of Process & Technology Development –

***“This product is a game-changer for any manufacturer looking to improve their efficiency. CenterLine is proud to introduce another innovative solution for the benefit of our customers.”***

**CenterLine KapTec™**

#### Some of the standard features include:

- Modular design improves serviceability; core components are common across the entire KapTec product line.
- Integrated cap presence detection to verify correct cap removal and installation.
- Extracted cap collection with easy removal.
- Compact design minimizes floor space requirement.
- Available in Dresser-only configuration.
- With an optional magazine cover included, caps are protected from expulsion and debris before installation onto electrode adapters.

**Advantages:**

- Magazines hold 60% more caps than other brands.
- Dress and change caps on any gun.
- Common core components minimize spare parts inventory.
- Improve machine/cell uptime.
- Minimize operator exposure to the inside of the cell.
- Better electrode adapter life (no manual cap removal).
- Magazine quick exchange off-line refilling
- Gentle cap extraction with no requirement for robot or gun to move during extraction

The KapTec™ paired with our PedTec™ stand represents a significant evolution in CenterLine's existing industry-leading technology and is consistent with CenterLine's corporate vision to develop innovative solutions that enable our customers to exceed their operational, customer, and profit commitments while minimizing their risk and stress.

To date, CenterLine has been awarded over 80 patents and has numerous North American and international patents pending.
