

PRESS RELEASE

CenterLine Germany GmbH Acquires Assets of Dalex Automation & Welding GmbH – Diversification of Market Position

September 1, 2026 – Effective September 1, 2026, CenterLine Germany GmbH is acquiring the assets of Dalex Automation & Welding GmbH, a supplier of components and systems for resistance welding, as part of an asset deal. With this move, CenterLine Germany is expanding its portfolio and reinforcing its position as a process, service, and solution partner in resistance welding technology for various industrial sectors.

“The acquisition offers Dalex customers the assurance that their business relationships will continue seamlessly through CenterLine Germany. Part of the current CenterLine team has years of experience with Dalex products, providing the ideal foundation for this transition. Our focus on process, service, and customer solutions is strengthened, and our customers, as well as Dalex’s customers, will continue to receive optimal support throughout the entire product lifecycle,” says Udo Schulz, Managing Director of CenterLine Germany.

The parties have agreed not to disclose the financial details of the transaction.

About Dalex Automation & Welding GmbH

DALEX, headquartered in Wissen and founded in 1911, specialized in resistance welding technology, with product groups including spot welding, projection welding, seam rolling, lattice welding, and film seam welding. The company developed, designed, and manufactured everything from standard systems to complex welding cells. Dalex is currently undergoing insolvency proceedings, and its assets are being transferred to the CenterLine Germany facility in Sinn-Fleisbach.

About CenterLine Germany GmbH

Founded in 2004, CenterLine Germany GmbH is a privately held company based in Sinn-Fleisbach. It is part of the family-owned CenterLine (Windsor) Limited, based in Windsor, Ontario, Canada.
